Introduction to Green-4-Future Project

Green-4-Future is an innovative project that addresses the need to align economic goals with environmental and climate objectives stated in the **European Green Deal**.

The project aims to revise the EntreComp Framework of Reference developed by the Joint Research Centre (JRC) of the European Commission and turns it into a **green model Framework**. Also, the project will provide those in Academia, Business Development Organisations, Entrepreneurship, Policy Making, with a wide range of educational resources to support their endeavours in the sustainable Green Economy of the future.

Main Project outputs

IO1 - GreenEntreComp Framework

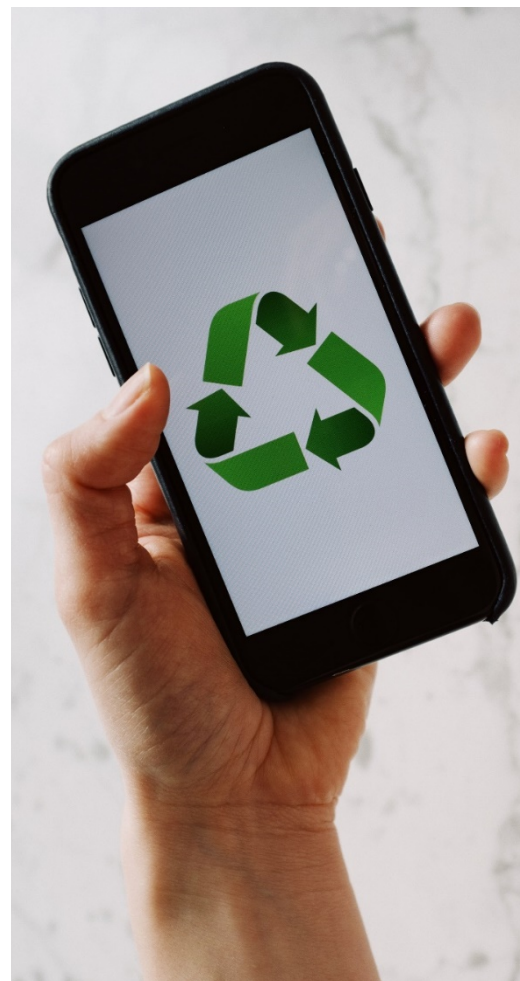

IO2 - Business Modelling for Circular Economy Businesses

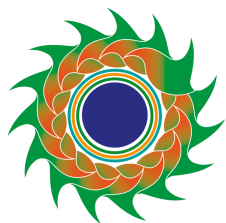

IO3 - In-service Training for VET Tutors

IO4 - Green-4-Future MOOC

September 2022.

Partner Meeting in Portugal

The Project Meeting in Portugal was held from 24th to 25th of May 2022. The meeting was hosted by the Portuguese partner **Instituto De Soldadura E Qualidade (ISQ)**. On the first day, the partners presented and discussed the current status of the Green-4-Future project in general, including the overview of the IOs and the project website as well as the current status of the project in each partner organisation. Also, the finished **IO1 – GreenEntreComp Framework**

was presented as well as the current status of the **IO2 - Business Modelling for Circular Economy Businesses** and **IO3 - In-service Training for VET Tutors**. The first day ended with the presentation of the **IO4 - Green-4-Future MOOC** prototype and discussion. The second day was reserved for planning the **dissemination and exploitation** of the project, defining the project timeline, work plan and setting project milestones. Overall, it was a very insightful and productive partner meeting!

Current state of the Intellectual Outputs – IOs

We are proud to announce that the **GreenEntreComp** document, which is the first Intellectual Output, is completed and now the partners are working tirelessly on the rest of the IOs. You will be updated on the progress of the IOs in the next Newsletter!

Next steps

In December 2022 the revised **GreenEntreComp** will be presented at a 3-day **Transnational Training event for VET tutors** in Germany in order to teach VET professionals how to implement the new framework into their practice.
